51% Rye Mini Soft Roll RtS 45g

This bread expands the range with a more intense flavour proposal, while maintaining the essence of the Tiernecito family: very soft, tender and fluffy breads.

Made with 51% rye, it features a darker colour both inside and out, a soft, airy crumb and a very thin crust that makes it easy to eat. Its flavour is deeper, with a slight acidic profile characteristic of rye, offering a more distinctive experience without losing its light texture.

With an individual format and “thaw and serve” preparation, it is a practical option that makes it possible to expand the bread roll offering with more character, ideal for bakeries, supermarkets, foodservice, catering and events, responding to the consumer trend for breads with greater nutritional value and variety without increasing operational complexity.
